

Composer Pro[®]

OPTICAL DISC DUPLICATOR

PRIMERA
TECHNOLOGY, INC.

Produce High Volumes of Discs Without the High Cost!

If you need to produce a lot of CDs or DVDs, look no further than the new ComposerPro from Primera Technology. It offers all the features, performance and dependability that has made Primera a leader in desktop CD/DVD duplication and printing.

Its 100-disc capacity and dual CD or DVD recorders let you produce high-volumes of discs – right on your own desktop. Add an optional Primera CD Color Printer and you'll be able to print directly onto the surface of discs for a highly professional and finished look.

Simple Operation, Reliable Performance

Once started, ComposerPro operates completely unattended. Simply place up to 100 blank discs at a time in the input bin. ComposerPro's integrated robotics will automatically load discs into the high-speed CD or combination DVD/CD recorders.

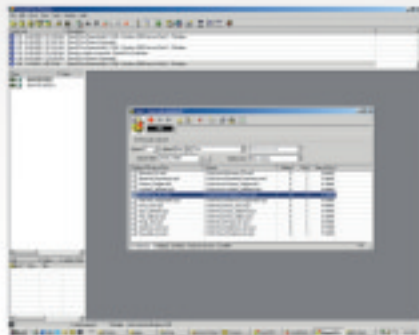

Precision Robotic Control

Discs are transported to the dual CD or DVD recorders and optional printer by ComposerPro's advanced robotic arm. This precision mechanism picks each disc and puts it in the appropriate recording or printing station with placement accuracy better than 0.06 of an inch (1.5mm), assuring you of reliable, unattended operation for each and every job.

Professional Software Included

ComposerPro comes complete with easy to learn and highly capable mastering and duplication software for CDs, DVDs or both.

Multiple Printing Options

Print text, graphics, logos and more directly onto the surface of your discs with an optional Primera inkjet or thermal CD printer.

Printing and recording takes place simultaneously to maximize throughput. You'll quickly produce discs that not only are perfect digital copies, but also look like they were professionally silk-screened.

For printing, select the Signature® IV or SignaturePro® inkjet CD printers for full-color text, graphics and photos at up to an incredible 2400 dpi print resolution. Or, you might prefer the Inscripta™ Thermal CD Printer. It prints one or two-color text and graphics that are waterproof and highly scratch-resistant at up to 600 dpi.

Optional Pioneer® Combo DVD-R/CD-RW Drive

The combination DVD-R/CD-RW model, utilizing Pioneer's latest optical disc recording technology, is particularly versatile. Each drive is dual-purpose, able to record both General Purpose (GP) DVD-Rs as well as CD-R/CD-RWs. Now you'll be able to record either format without the need for expensive upgrades.

The Price/Performance Leader

No matter what you need to duplicate – software, audio, music, video, data, photos, presentations and more – ComposerPro is your professional, high-volume desktop duplication solution, at a price that virtually any company can afford!

Technical Specifications

Model:	ComposerPro Optical Disc Duplicator
Disc Capacity:	100 disc input and output
Configurations:	
CD-R System	Two 52x CD-R Recorders, Sonic PrimoDVD 2.0 Software
DVD-R/CD-R System	Two 4x/16x Pioneer DVR- A05 Recorders, Sonic PrimoDVD™ 2.0 Software
Optional Printers:	Signature IV CD Color Printer, SignaturePro CD Color Printer or Inscripta Thermal CD Printer by Primera Technology
Minimum System Requirements:	Pentium® III at 700 MHz or higher, 512MB RAM, available PCI slot, IEEE 1394 adapter, one free serial port, one free parallel printer port
Recordable Formats:	CD: CD-R, CD-RW, CD-Audio (CD-DA), Video-CD, MP3 to CD-Audio, most other industry-standard CD formats DVD: DVD-R, DVD-RW; other formats to be added as they become standardized by the industry
Operating Systems:	Windows® 2000, XP Note: For DVD-R system you must have Windows 2000 or XP with an NTFS drive partition
Interface:	
Robotic Control	Serial port
Printing	Parallel port (ECP)
Disc Image Data	(IEEE 1394)
Power Requirement:	100-240 VAC, 50/60 Hz, 60 watts
Weight	14 lbs. (6.35 kg)
Dimensions	16.625"W x 12"H x 10.125"D (422mW x 328mmH x 257mmD)
Certifications:	
Emissions	FCC Class B, CE
Safety	UL, UL-C, CE
Warranty	One year

Optional Printers:

SignaturePro CD Color Printer

Signature IV CD Color Printer

Inscripta Thermal CD Printer

ComposerPro is from Primera Technology, an industry-leading manufacturer of optical disc printing and duplication equipment. Its management is responsible for the design and manufacture of over one million thermal transfer, inkjet and dot matrix printers. Primera Technology products are distributed worldwide in over 85 countries.
